Cristian Hesselman, Elmer Lastdrager, Ramin Yazdani, and Etienne Khan

University of Twente | April 28, 2020

Paper summaries

- You must have handed in your two summaries BEFORE the lecture
- You can use the summaries during the oral exam (“open book”)
- You **cannot** complete SSI without submitting 12 paper summaries!
- First two summaries due at **7 AM on Thu May 6**

Interactive lectures

- Goal: enable you to learn from each other and further increase your understanding of the papers (contributes to preparing yourself for the oral exam)
- Interactive format
 - Teachers summarize two papers per lecture
 - Multiple-choice questions (not graded) and discussion
 - We ask at least one of you to share their thoughts on each paper (pros, cons)
 - Enables you to learn from each other, so mandatory to participate
- A 7th “re-sit” lecture in case you miss a lecture (optional for everybody else), same format

Lab assignment

- Create **groups of 3 on Canvas**, at least 2 IoT devices per group
- MUD descriptions: you'll need to generate them yourselves, tools are available
- IoT devices: you'll need to work with the actual hardware, no emulations (unless as an extra)
- Use IoT devices without a browser-like interface, such as light bulbs, audio speakers, doorbells
- Do not use multi-purpose devices like tablets, phones, laptops
- Etienne Khan available for assistance

Important dates

- Two summaries per lecture: before the lecture in which the papers will be discussed
- Lab report (PDF) and required files: **Sun June 20, 2021, 23:59 CEST**
- All to be submitted through CANVAS

Common pitfalls

- Forgetting to submit summaries or submitting the wrong ones ;-)
- Starting too late with the lab report

“I love deadlines. I love the whooshing noise they make as they go by.”

-- Douglas Adams

- Properly test your measurement setup. Consider reproducibility early on.
- “Oh, I just copy this paragraph from this website”
